EXAMPLE Express® User Guide

This guide contains instructions for using EXAMPLE Express®. All instructions in this guide are based on an EXAMPLE Express® implementation that uses out-of-the-box Avant Garde-based skins.

The use of multiple browser windows, multiple tabs, or multiple browser sessions is not supported by the EXAMPLE Platform®. EXAMPLE Express® users should not have multiple EXAMPLE Express® sessions open at one time. This restriction prevents data corruption that can occur when the same session is open in multiple windows.

Logging In and Out of EXAMPLE Express®

To use EXAMPLE Express®, you must have a valid username and password. EXAMPLE Express® is shipped with a default System Administrator account that uses the following username and password:

- **Username** – admin
- **Password** – admin

The shipped password to be entered in the **Password** text box is *admin*. DCT recommends changing the password after your initial login. For instructions on changing your password, see *Updating Users*.

Logging in to EXAMPLE Express®

To log in to EXAMPLE Express®:

1. In a supported browser, navigate to `http://localhost/[Express virtual directory]/default.aspx`.
2. On the login page, enter your **Username** and **Password**, and then click **Login**. The Policy Administration Dashboard appears.

Logging out of EXAMPLE Express®

To log out of EXAMPLE Express®:

- In the system navigation at the top of the screen, click **Logout**.

Working with Quotes and Policies

When working with policies and quotes in EXAMPLE Express®, you can:

- *Start new quotes*
- *Search for existing quotes or policies*
- *View quotes and policies*
- *Create quote or policy documents*
- *Duplicate quotes or policies*

- *Download quotes or policies*
- *Delete quotes or policies*

Starting a Quote

You can create quotes for new or existing clients. You can also create multiple quotes with similar information by duplicating existing quotes or policies.

Starting a Quote for a New Client

To start a quote for a new client, perform one of the following actions:

- Click **New Quote** in the upper right corner of the application.
- (Agents and Assistants only) On the Policy Administration Dashboard, in the **New Quote** section, select the desired **Agency**, **Producer**, and **Product**, and then click **Start**.

Starting a Quote for an Existing Client

To start a quote for an existing client:

- On the Client Information page for the desired client, in the **Policies and Quotes** section, click **Start A New Quote**.

For instructions on getting to the Client Information page for a given client, see *Viewing Client Information*.

Duplicating Quotes

If desired, you can create quotes from existing quotes or policies by duplicating the desired quote or policy, changing any desired information, and then saving the quote as a new quote.

To duplicate a quote or policy:

- In any list of quotes and policies (from the search results list or from the Client Information page for a given client), click the **Duplicate** button

Searching for Quotes or Policies

When searching for quotes and policies, you can search for specific quotes and policies, or you can instruct the system to list all quotes and policies.

To list all quotes and policies:

1. On the Search page, to the right of **I'm looking for**, click **All Policies and Quotes**.
2. (Optional) Define any additional search criteria:
 - **Search in** – Agency to limit the search to.
 - **Include previous terms** – (Applicable only when searching by policy/quote number) Search previous policy terms for the specified criteria in addition to searching the current policy term.
 - **Include deleted** – Includes deleted policies and quotes in the search.
3. Click **Search**.

To search for specific quotes or policies:

1. On the Search page, to the right of **I'm looking for**, click **Specific Policies and Quotes**. Additional options appear.
2. To the right of **I want to search by**, enter the desired search criteria. If you wish to search by more than one criterion, click the **Add Filter** button  to add another line.

When both *and* and *or* operators are used in a search, *and* operators take precedence over *or* operators. For example, if using the following criteria to search for a policy:

Client Name contains Smith AND

Address is 4659 W. Brookside OR

Address is 1544 Birmingham Dr.

The system will return the following policies:

1. All policies with a client name that contains the text *Smith* and an address of *4659 W. Brookside*.
2. All policies with an address of *1544 Birmingham Dr.*

3. (Optional) Define any additional search criteria:
 - **Search in** – Agency to limit the search to.
 - **Include previous terms** – (Applicable only when searching by policy/quote number) Search previous policy terms for the specified criteria in addition to searching the current policy term.
 - **Include deleted** – Includes deleted policies and quotes in the search.
4. Click **Search**.

Viewing Quotes and Policies

In EXAMPLE Express®, you can view and work with quote and policy data, or you can view general details about a quote or policy, such as tasks and notifications associated with the quote or policy, and any documents attached to the quote or policy.

Viewing Quote/Policy Data

To view quote/policy data, perform one of the following actions:

- On the Policy Administration Dashboard, in the **Recently Accessed** list, click the quote or policy number of the desired quote or policy.
- In any list of quotes and policies (from the search results list or from the Client Information page for a given client), click the **View Policy** button .
- In the **Policy Actions** list that appears in the left panel when a quote or policy is open, click **View Policy**.

Viewing Quote/Policy Details and Attachments

To view quote/policy details and attachments, perform one of the following actions:

- In any list of quotes and policies (from the search results list or from the Client Information page for a given client), click the **View Policy Details** button .
- In the **Policy Actions** list that appears in the left panel when a quote or policy is open, click **View Policy Details**.

Creating Quote or Policy Documents

To create quote or policy documents:

1. From an open quote or policy, in the **Policy Actions** list in the left panel, click **Create Policy Documents**. The Create Policy Documents page appears.
2. Click the desired document.
A new window opens with the new document displayed.
3. Save or print the document.

If you wish to attach the document to the policy or quote, you must save the document, and then attach it to the policy or quote from the **Attachments** section on the Policy Details page. For instructions on getting to the Policy Details page, see *Viewing Quotes and Policies*.

Duplicating a Quote or Policy

To duplicate a quote or policy:

- In any list of quotes and policies (from the search results list or from the Client Information page for a given client), click the **Duplicate** button . A new quote is created with the same information as the selected quote.

Downloading a Quote or Policy

To download the XML version of a quote or policy:

1. In any list of quotes and policies (from the search results list or from the Client Information page for a given client), click the **Download** button . The File Download dialog box appears.
2. In the File Download dialog box, click **Save**. The Save As dialog box appears.
3. In the Save As dialog box, browse to the directory in which you wish to save the file, and then click **Save**. The Download Complete dialog box appears.
4. When the download is complete, click **Close**.

Deleting a Quote or Policy

To delete a quote or policy:

1. In any list of quotes and policies (from the search results list or from the Client Information page for a given client), click the **Delete** button . A confirmation message appears.
2. Click **Yes** to delete the quote.

Working with Clients

When working with clients in EXAMPLE Express®, you can:

- *Add new clients*
- *Search for existing clients*
- *View client information*
- *Update client information*
- *Delete clients*

Adding a New Client

In EXAMPLE Express®, clients are automatically created when new quotes with new client names are created. To add a new client without starting a quote for that client:

1. On the Search page, search for the desired client.
2. If the client cannot be found, below the search results, click **Create New Client**.
The Client Detail Manuscript page appears. From this page, you can enter new client information.

Searching for Clients

When searching for clients, you can search for specific clients, or you can instruct the system to list all clients.

To list all clients:

1. On the Search page, to the right of **I'm looking for**, click **All Clients**.
2. (Optional) Define any additional search criteria:
 - **Search in** – Agency to limit the search to.
 - **Include deleted** – Includes deleted policies and quotes for clients in the search.
3. Click **Search**.

To search for specific clients:

1. On the Search page, to the right of **I'm looking for**, click **Specific Clients**.
Additional options appear.
2. To the right of **I want to search by**, enter the desired search criteria. If you wish to search by more than one

criterion, click the **Add Filter** button  to add another line.

When both *and* and *or* operators are used in a search, *and* operators take precedence over *or* operators. For example, if using the following criteria to search for a client:

Client Name contains Smith AND

Address is 4659 W. Brookside OR

Address is 1544 Birmingham Dr.

The system will return the following clients:

1. All clients with a client name that contains the text *Smith* and an address of *4659 W. Brookside*.
2. All clients with an address of *1544 Birmingham Dr.*

3. (Optional) Define any additional search criteria:

- **Search in** – Agency to limit the search to.
- **Include deleted** – Includes deleted policies and quotes for clients in the search.

4. Click **Search**.

Viewing Client Information

The Client Information page displays basic client information and a list of all quotes and policies associated with a specific client. To view client information:

- From any search results list, or from the **Recently Accessed** list on the Policy Administration Dashboard, click the **Insured Name**.

Updating Client Information

To update client information:

- From the Client Information page for a given client, in the **Client Details** section, click **Update Client Details**.

For instructions on getting to the Client Information page, see *Viewing Client Information*.

Deleting Clients

To delete a client:

1. In the list of clients (from the search results list for a client search), click the **Delete** button . A confirmation message appears.
2. Click **Yes** to delete the client.

Working with Tasks

When working with tasks in EXAMPLE Express®, you can:

- *Create tasks*
- *View task details*
- *Complete tasks*
- *Decline tasks*
- *Edit tasks*
- *Reassign tasks*
- *Return tasks to queues*
- *Manage tasks*
- *Delete tasks*

Creating a Task

In EXAMPLE Express®, tasks must be associated with a specific policy or quote.

To create a task for a specific policy or quote:

1. On the Policy Details page for the desired policy or quote, in the **Tasks** section, click **Add A Task**. The New Task page appears.

For instructions on getting to the Policy Details page, see *Viewing Quotes and Policies*.

2. Enter information for the task, and then click **Create Task**.

Viewing Task Details

To view task details:

- In the list of tasks (on the My Tasks page, the Policy Details page for a given quote or policy, or the Policy Administration Dashboard), click the **Title** of the task.

Completing a Task

To complete a task:

1. On the Task Details page for the given task, click **Complete**. A confirmation message appears.

For instructions on getting to the Task Details page for a specific task, see *Viewing Task Details*.

2. Click **Yes** to complete the task.

You can also:

In the list of tasks on the My Tasks page or the Policy Details page for a given quote or policy, click the

Mark Complete button  for the task you wish to complete.

Declining a Task

To decline a task:

1. On the Task Details page for the given task, click **Decline**. A confirmation message appears.

For instructions on getting to the Task Details page for a specific task, see *Viewing Task Details*.

2. Click **Yes** to decline the task.

Editing a Task

To edit a task:

1. On the Task Details page for the given task, click **Edit**.

For instructions on getting to the Task Details page for a specific task, see *Viewing Task Details*.

2. Edit any desired fields, and then click **Save**.

Reassigning a Task

To reassign a task:

1. On the Task Details page for the given task, click **Reassign**.

For instructions on getting to the Task Details page for a specific task, see *Viewing Task Details*.

2. Click the desired **Queue** and **Assignee**, and then click **OK**.

You can also:

In the list of tasks on the Task Management page, click the **Reassign** button  for the task you wish to reassign.

Returning a Task To a Queue

To return a task to a queue:

1. On the Task Details page for the given task, click **Send to Queue**.
A confirmation message appears.

For instructions on getting to the Task Details page for a specific task, see *Viewing Task Details*.

2. Click **Yes** to send the task back to the queue.

Managing Tasks

Managers can manage task workloads using the Task Management page. From this page, managers can easily:

- View and access all tasks in the queues to which the manager has access
- Sort tasks by queue, assignee, state, due date, and/or category
- Distribute and redistribute tasks to the appropriate queues and users

To access the Task Management page:

- From the Tasks section, in the left panel, click **Task Management**.

Deleting a Task

To delete a task:

1. On the Task Details page for the given task, click **Delete**.
A confirmation message appears.

For instructions on getting to the Task Details page for a specific task, see *Viewing Task Details*.

2. Click **Yes** to delete the task.

Working with Notifications

When working with notifications in EXAMPLE Express®, you can:

- *Send notifications*
- *View notification details*
- *Delete notifications*

Sending a Notification

In EXAMPLE Express®, you can send a general notification (not attached to any quote or policy) or a policy-specific notification (attached to a quote or policy).

Sending a General Notification

To send a general notification (not attached to a quote or policy):

1. On the Notifications page, click **Send A Notification**.
The New Notification page appears.
2. Beneath **Send To**, click the desired recipient.
 - **All users** – Skip to Step 4.
 - **Selected users, Selected entities, or Selected entity groups** – Continue with Step 3.
3. Select the desired users, entities, or entity groups.
4. Select the **Type** of notification.
5. Enter the **Subject** of the notification.
6. Enter the text of the notification, and then click **Send**.

Sending a Policy-Specific Notification

To send a notification attached to a quote or policy:

1. On the Policy Details page for a given quote or policy, in the **Notifications** section, click **Send A Notification**.
The New Notification page appears.
2. Beneath **Send To**, click the desired recipient. If you do not select a recipient, no users will see the notification on their Notifications or Policy Administration Dashboard pages. Regardless of whether a recipient is specified, all users who have the appropriate notification and policy privileges at the entity associated with that policy will see the notification on the policy's Policy Details page.
 - **All users** – Skip to Step 4.
 - **Selected users, Selected entities, or Selected entity groups** – Continue with Step 3.
3. Select the desired users, entities, or entity groups.
4. Select the **Type** of notification.
5. Enter the **Subject** of the notification.
6. Enter the text of the notification, and then click **Send**.

Viewing Notification Details

To view notification details, perform one of the following actions:

- In the list of notifications on the Notifications page or on the Policy Details page for a given quote or policy, click the **View** button .
- In the list of notifications on the Policy Administration Dashboard, click the **Message** of the desired notification.

Deleting a Notification

Deleting a notification deletes the notification from the database. The notification will be removed from all users' lists of notifications.

To delete a notification:

1. When viewing notification details, click **Delete This Notification**.
A confirmation message appears.
2. Click **Yes** to complete the task.

You can also:

In the list of notifications on the Notifications page or on the Policy Details page for a given quote or policy,

click the **Delete** button .

Working with Notes

In EXAMPLE Express® you can create notes that are attached to a policy from the Policy Details page for a given policy. Notes are linked to the history image of a given policy. For a group of notes from particular transactions or notes created while the policy was in the quoting phase, users can view the following:

- The order in which the notes were entered based on creation date
- The state of the policy when the note was entered
- The transactions the notes apply to

This allows users to locate a specific transaction or point in the policy lifecycle and see which notes applied. Users can also view a specific endorsement and the applicable notes.

Out of the box, the Notes section appears as follows:

- On the Policy Details page (shown below)

Notes

View all notes ▾

Date	Note ▾	Created By	Visibility		
9/14/2011, 9:43 am	Verified removal of 2010 Infiniti from CA policy.	Express Admin	Public		
9/14/2011, 9:48 am	Updated address for vacation rental property.	Express Admin	Internal

Attachments ▾ Notes ▾

Using Underwriter's Workbench Toolbar

When a user is creating a policy or a quote, the toolbar appears attached to the bottom of the browser window on top of the EXAMPLE Express® screen. This allows the user to access notes without navigating away from the current page to view the Policy Details page.

To use notes:

1. In the toolbar, click the **Notes** button to view notes associated with the current policy.

A panel opens displaying the most recent 100 notes. If not all items fit in the list, use the list's scrollbar to see the additional notes.

2. Click a note to read it. The user can delete the note by clicking it to read it, and then clicking the **Delete** button.
3. Click **Add a note** to add a new note; the user can select a check box to make the note for internal use only.

The screenshot displays a software interface for managing notes. The main window, titled 'Notes for: 44Q2012', contains a list of notes. One note is visible: 'Review previous policy exceptions.' with a timestamp of '2/28/2012, 10:29 am' and the user 'Express Admin'. An 'Add a note' button is located at the top right of the notes list. An 'Add a note' dialog box is open on the right side of the screen. This dialog box has a large yellow text area for entering the note content, an 'Internal Only' checkbox, and 'Save' and 'Cancel' buttons at the bottom right.

4. Click **Save** to save a note or **Cancel** to close the note without saving it.

Functions for Notes

When working with notes in EXAMPLE Express®, users can perform the following functions on the Policy Details page, using Underwriter's Workbench Toolbar, or both.

Function	Description
Add note	On the Policy Details page for a given quote or policy, in the Notes section, click Add a note  Add a note In the Note window, enter the desired text and click Save. The note will appear in the Notes section displaying the date and time created, who it was created by, and the visibility type.

Set note to Internal Only	When a note is created, it can be set to Internal only by selecting the Internal only checkbox. If the checkbox is not selected, the note will be set to public.  Users must have the Security Level CarrierAdmin (SecLevel_CarrierAdmin) or Security Level CarrierUser (SecLevel_Underwriter) security level with the entity associated to the policy to mark notes as Internal Only and view Internal Only notes.
Delete	In the list of notes on the Notes page or on the Policy Details page for a given quote or policy, click Delete  or  Delete. This will remove the note from the users list and set the status to Mark for Delete in the database. Deleting a note will not remove the it from the database.  Users must have the Security Level CarrierAdmin (SecLevel_CarrierAdmin) security level to delete a note. The delete icon will not display for other users.
View note	In the list of notes on the Notes page or on the Policy Details page for a given quote or policy, click View . When a user views an existing note, the note text and Internal Only checkbox appear as read-only. Once saved, a note cannot be edited.  Users must have the Security Level CarrierAdmin (SecLevel_CarrierAdmin) or Security Level CarrierUser (SecLevel_Underwriter) security level with the entity associated to the policy to view Internal Only notes.
Refresh view	If changes are made to items accessed using Underwriters Workbench Toolbar while it is open, the toolbar might not display the most up-to-date information. Click the Refresh Form Data button to update toolbar entries with the most current information. 
Filter notes view	In the View notes dropdown on the Notes page or on the Policy Details page, users have the following options to filter the notes they wish to view: • View all notes (default) • View my notes • View deleted notes

For more information, see:

- *Setting up Underwriter's Workbench Toolbar*
- *Underwriter's Workbench Toolbar*
- *Working with Attachments*

Working with Batch Reports

When working with batch reports in EXAMPLE Express®, you can:

- *View a list of batch processes performed by the system*
- *View individual reports for each batch process*
- *Open a quote/policy or notification from a batch report*

Viewing the List of Batch Reports

To view the list of batch processes performed by the system:

1. In the main navigation, click **Batch Reports**.
A list of completed batch processes appears.
2. Remain on the **Batch Policy** page to view batch processes performed on quote and policies, or click **Batch Notification** to view batch processes performed on notifications.

Viewing a Batch Report

To view a report for a completed batch process:

- On the Batch Reports page, in the desired list of reports (Batch Policy or Batch Notification), click the **Log Name** of the report you wish to view.
A new tab opens with the results of the batch process listed. The report lists all quotes/policies or notifications involved in the batch process, and whether the actions performed on each quote/policy or notification succeeded or failed. If desired, you can open any quote/policy or notification listed and perform any necessary actions.

When viewing a batch report for policies, the user can only see those policies for which he or she has the *ViewQuotes* privilege.

Opening a Quote/Policy or Notification

To open a quote or policy listed in a batch report:

- On the Batch Policy page, click the **Client Name** of the quote or policy you wish to open.

To open a notification listed in a batch report:

- On the Batch Notification page, click the **Subject** of the notification you wish to open.

Other Actions

In addition to the primary actions that can be performed with quotes and policies, clients, tasks, notifications, and batch reports in EXAMPLE Express®, users can also perform the following actions:

- *New users can request an account.*
- Existing users can:
 - *Change their password*
 - *Manipulate tables and save their preferences.*

Requesting an Account

If you do not have an EXAMPLE Express® account, you can request one from the Login page.

To request an EXAMPLE Express® account:

1. In Microsoft Internet Explorer 7.0 or higher, navigate to `http://localhost/[Express virtual directory]/default.aspx`.
2. On the login page, click **Get an Agency Account**.
The New Agency Signup page appears.
3. Enter the requested information, and then click **Submit**.
A confirmation message appears.
4. Click **OK** to submit the account request.
Once an EXAMPLE Express® administrator has approved the request (using EXAMPLE UserAdmin™), the account will be activated.

Changing Your Password

To change your password:

1. Beneath **Login Options** on any page (or at the bottom left of the Policy Administration Dashboard), click **Change Password**.
The Change Password page appears.
2. Enter your **Current Password**, and then enter the desired password in the **New Password** and **Confirm New Password** fields.
3. Click **Change Password**.

Setting Table Preferences

You can set preferences for the display of tables in EXAMPLE Express®. In EXAMPLE Express® tables, you can:

- *Sort table data*
- *Show or hide columns*
- *Rearrange column order*

After setting table preferences, you can save your changes and preserve your preferences, or you can restore the default table settings.

- To save table preferences, click the **Save Table Settings** button .
- To restore table defaults, click the **Restore Defaults** button .

Sorting Table Data

To sort table data:

1. In the table you wish to sort, hover over the column heading by which you wish to sort.
2. Click the drop-down arrow to the right of the heading.

3. Click **Sort Ascending** or **Sort Descending**.

You can also:

In the table you wish to sort, click the column heading by which to sort the data. The table automatically sorts in ascending order. To sort in descending order, click the column heading again.

Showing or Hiding Columns

To show or hide columns:

1. In the table you wish to sort, hover over any column heading.
2. Click the drop-down arrow to the right of the heading.
3. Point to **Columns**, and then click the columns you wish to show or hide.

Rearranging Column Order

To rearrange column order:

- Click the heading of the column you wish to move, and drag it to the desired location.

Working with Addresses

Pitney Bowes Address Verification allows users to send a single address to the Pitney Bowes data service for verification and to receive a response that includes latitude, longitude, validated address, percentage of confidence in the match, and a match code.

Verifying an Address

To use Pitney Bowes Address Verification:

1. In EXAMPLE Express®, start a new quote.

In the Applicant screen, after entering an address, in the Geocoding Status area, click the **Verify** link. The Verification List page sends one address at a time to Pitney Bowes for verification.

- In the Address to Verify window, select **Verify this address** to use address verification. Clicking **Cancel** allows the user to exit the window without verifying the address.

If address verification gives an error, check that the correct credentials (user name, password, and URL) were used when installing Pitney Bowes Address Verification. For more information, see *Setting Up Pitney Bowes Address Verification*.

Pitney Bowes US Address Geocoding

Address to Verify

222 N Main Ave

Springfield, MO 65806

Verify this address

Cancel

- The window opens. Click **Accept** to use the verified address provided by Pitney Bowes or click **Reject** to keep using the address that was previously on file; this previous address is unverified. The Verification Results window provides the following information:

- The address that is verified.
- The latitude and longitude of the address.
- A percentage that represents the confidence Pitney Bowes has in the address. A percentage of 100% represents absolute certainty that the address exists as entered, whereas 50% represents half as much confidence in the address. When accepting verified addresses, consider the level of confidence in the address that Pitney Bowes provides.

To conform with U.S. Postal Service requirements, Pitney Bowes adds line two of the address to the end of line one.

Editing a Verified Address

Editing a verified address changes the address in the EXAMPLE database but also causes the address to become unverified.

Pitney Bowes Address Verification does not push address changes to Pitney Bowes. Pitney Bowes verified addresses can be pulled and used but cannot be changed for Pitney Bowes.

To edit a verified address:

1. Click the **Edit verified address** link. This link displays only for verified addresses.

Working with Attachments

Underwriter's Workbench Toolbar lets users add and delete attachments. When a user is creating a policy or a quote, the toolbar appears attached to the bottom of the browser window on top of the EXAMPLE Express® screen. This allows the user to access attachments without navigating away from the current page to view the Policy Details page.

Viewing Attachments

To use attachments:

1. In the toolbar, click the **Attachments** button to view attachments associated with the current policy.

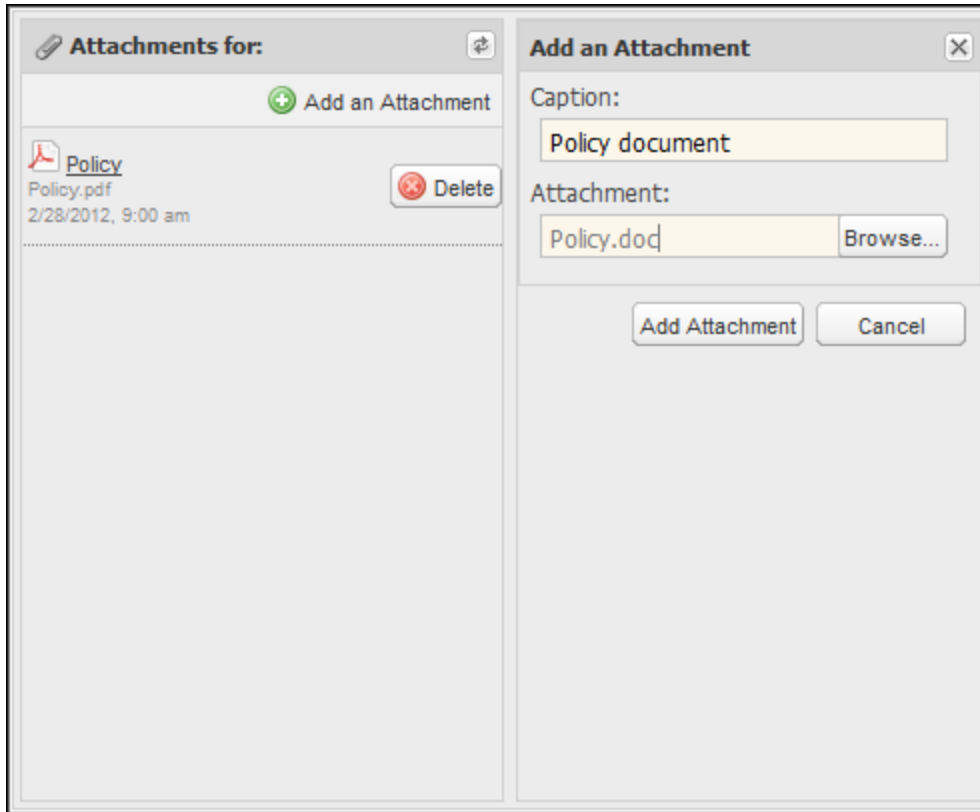

A panel opens displaying associated attachments, attachment type, and the title of the attachment. If not all items fit in the list, use the list's scrollbar to see the additional attachments.

3. Click an attachment to download and open the attachment. Additionally, the user can add or delete an attachment by clicking the appropriate button.

The **Add Attachment** button remains disabled until the user completes the required fields for the attachment.

Functions for Attachments

When working with attachments in EXAMPLE Express®, users can perform the following functions using Underwriter's Workbench Toolbar.

Function	Description
Add attachment	Click Add an Attachment , then use Browse, and then Add Attachment  to select the attachment. The attachment, attachment name, information about the file, and a link to the attachment display in the toolbar.  Users must have the AddAttachments security level to add an attachment.

Delete	In the list of attachments, click Delete  to remove the attachment from the list.  Users must have the DeleteAttachments security level to delete an attachment. The delete icon will not display for other users.
View attachment	Click the link associated with an attachment to open the attachment and view it.  To view an attachment, the user must have a computer capable of opening the file type of the attachment.
Refresh view	If changes are made to items accessed using Underwriters Workbench Toolbar while it is open, the toolbar might not display the most up-to-date information. Click the Refresh Form Data button to update toolbar entries with the most current information.
